

## ***New Safety Measures at School Points of Entry***

Maplewood has launched a new visitor management system called SchoolSafeID. This is a proactive measure to keep our students and staff safe.

All visitors are required to scan a valid state issued ID or driver's license.

### ***How does it work?***

A kiosk touch screen guides you through the process.

After scanning your ID, the system runs a quick background check.

Once cleared by the background check, your picture is taken, and a visitor ID sticker is printed. Wearing the visitor ID sticker is necessary for entry and must be worn the entire time. The visitor ID sticker is time stamped and is good for one visit only.

Thank you for your cooperation!
