

# BUTCHER-BUSINESS MATH A –7<sup>TH</sup> PERIOD – OFF-SITE LEARNING PACKET DAY 3

Instructor Nancy Butcher

Date Day 3

Program/Class BSN Math A

Period 7, 8

**State Indicator/Competency:** Calculate expected values and use them to solve problems.

**Instructional Objective(s):**

1. Students will be able to prepare a deposit slip with 80% accuracy.

**Materials:** Packet #3, calculator, pencil

**Method of Instruction:** Independent Student Led

**Activities:**

A deposit slip is used to deposit cash in a checking account. To fill out a deposit slip:

1. The total of bills and coins are listed on the line labeled CASH
2. Each check is written on a separate line in the space for checks.
3. If there are more checks than lines available on the front of the deposit slip, list the additional checks separately on the back.
  - a. The total from those lines is entered on the TOTAL FROM THE OTHER SIDE line on the front.
4. All the amounts are added to find the sum and written on the SUBTOTAL line
5. To receive cash back, write the amount on the LESS CASH RECEIVED line
6. TOTAL DEPOSIT = SUBTOTAL – LESS CASH RECEIVED

- 1.) Example: Alice Roth made a deposit to her checking account: (bills) 5 fives, (coins) 3 quarters, (checks) \$150 and \$100.25. She received 25 one-dollar bills in cash back. Complete a deposit slip.
