After Resume Prompt

CW: 10 pts

Directions: Read the following scenario and then respond to the prompt in 4-5 sentences. You should use complete sentences that contain as few spelling & grammatical errors as possible.

"I like my job because it's what I've always wanted to do with my life, I've been trained/educated in this field, and I feel like it's an important job in the context of the community I live in.

I need my job because it provides the financial means (\$) for me to support myself and my family. I am able to provide a home, food, transportation and entertainment/vacations for myself & my family because of my job.

One day, my boss asks me to complete a task for which I see no point. I believe that this task is stupid, pointless, has nothing to do with my job, is beneath me & therefore insulting, and will in no way lead to the improvement of my skills or contribute to my making more money, but I know that I have to do it.

A few days later, my boss tells me that he feels I put forth no effort in completing this task.

Explain the possible consequences of your actions on yourself and your family. You should provide an example of at least TWO possible consequences and a description of whom each would effect and how.
