

Carpentry Related Career Research Project

This will be an assignment that will require internet research.

You will provide a paragraph about a field you would like to pursue that is carpentry related.

Your writing must include the income range for this profession, the lifestyle and education level of the individual working in the field (what can they afford to do, what education level is required), typical day at the "office", how much do they work, is it a satisfying career?

Students must write legibly or type a 1 page report that will be turned in and graded. Students will give an oral presentation of their findings in the next couple days.

Choose one of the following carpentry related fields
