

JOHNSON - SENIOR LAB - OFF-SITE LEARNING PACKET DAY 3

Instructor Robert Johnson

Date 3

Program/Class IT Seniors

Period 3

Instructional Objective(s):

Investigate jobs that are available in NE Ohio for entry level PC technicians. Research at least 5 job boards that have listings for IT positions here in NE Ohio. You may also expand this to another area of the country where you feel you may want to move to and get a job there as well.

Materials:

Open Office or Microsoft Office
Internet Access
IT Job Web Sites

Method of Instruction:

Independent Study

Activities:

Research at least 5 job board on the Internet that have career opportunities for entry level PC technicians. Search these job boards for jobs here in NE Ohio and even another area of the country where you might want to move to. Name the job boards, the job title, the qualifications and salary if it is mentioned. Look for entry level positions that require less than 2 years' experience. If possible list the company that the job is for and the city it is in. You then need to research the company and tell me if you would like to work. If you would like to work there why?

Example:

Job Board	Job Description	Experience	Company	Location	Pay
XYZ	Helpdesk Tech level 1	<1 yr	Joe's PC Repair Shack	Your town, OH	\$25,000/yr

Your thoughts on the job, company and location:

This would be a great job to gain these skills and allow me to move to

Closure:

Pick a top job from the list and tell me why you would like to have this job.

If you would like to work for a specific company state why? What is it about this job that intrigues you the most? Does the company have a good reputation? When could you start the job? What other opportunities does this job open up after say 3 to 5 years?
