7. Regan bought a jar of applesauce for \$3.47. She paid \$4.00. How much change did Regan receive?

## **SENIOR ADVOCACY LESSON, DAY 8**

### **The Right Job for You**

Most adults spend about half their waking hours at work. The lucky ones have jobs that offer them more than money. They also get satisfaction and maybe even have some fun at work. On page 40 you will read about Howie. He has to make a decision about what he wants to do after graduation. At the top of page 41 you see four job conclusions/likes. List three jobs Howie might like based on his conclusions.

Now it's Your Decision. Answer the nine questions listed on pages 41 and 42. What are three characteristics the job should have? Can you think of three jobs you might enjoy?
