# REVAK Jr. Lab Offsite Learning Packet Day 5

Before any decision involving the repair of a damaged vehicle can be made, a detailed repair estimate must be calculated and printed. All of the parts and procedures that must be completed are listed on the estimate. Then part prices and labor charges can be tabulated.

Although printed estimating guides are still used in the industry, the trend is to use computer-based estimating tools (Figure 10-2).

Before writing the formal damage report, preliminary information that identifies the owner
