

Name _____

Mrs. Lewis_Business_Math_B_Period 7 Offsite_Learning_Packet_Day 1

State Indicator/Competency: Calculate expected values and use them to solve problems.

Instructional Objective(s):

2.1 Deductions from Gross Pay

1. Students will be able to find federal withholding tax deductions with 80% accuracy.
2. Students will be able to calculate Social Security and Medicare tax deductions with 80% accuracy.
3. Students will be able to calculate total deductions and net pay with 80% accuracy.

2.2 Federal Income Taxes

4. Students will be able to calculate adjusted gross income and taxable income with 80% accuracy.
5. Students will be able to calculate the income tax due with 80% accuracy.
6. Students will be able to calculate the income tax refund for single dependents with 80% accuracy.

2.3 State and City Flat Income Taxes

7. Students will be able to calculate state and city income taxes using a flat tax rate with 80% accuracy.
8. Students will be able to calculate state and city income taxes using a graduated tax rate table with 80% accuracy.

2.4 Benefits and Job Expenses

9. Students will be able to calculate total job benefits with 80% accuracy.
10. Students will be able to calculate total net job benefits with 80% accuracy.
11. Students will be able to compare the net job benefits of jobs with 80% accuracy.

2.5 Analyze Take – Home Pay

12. Students will be able to calculate take-home pay as a percentage of gross pay with 80% accuracy.
13. Students will be able to calculate the impact of a raise on take home pay with 80% accuracy.
14. Students will be able to calculate potential tax savings of a cafeteria plan with 80% accuracy.

Materials: textbook, calculator, binder, writing utensil

Method of Instruction: Independent Student Led

Activities:

1. Find the total FICA tax on incomes of \$35,000.
 $.0765 \times 35000 = \$2,677.50$
2. Find each person's taxable income

Directions Read through the entire project before you begin doing any work.

Introduction Twanya and Lewellyn Madison are married and have one son. Twanya works part-time and Lewellyn works full-time as salesclerks in the same department store.

Step One

The Madisons complete their joint federal income tax return for last year's income. Their gross income last year was \$44,150. They had adjustments to income for an approved retirement plan of \$2,870. They also itemized their deductions and found a total of \$8,380. They claimed three exemptions (one each for Twanya, Lewellyn, and their son) at \$3,100 each.

1. What is their taxable income?
2. Using the tax table, what is the amount of their federal income tax?
3. The Madisons' employer deducted \$2,704 in federal withholding taxes during the year. Will the Madisons have to pay more taxes or will they receive a refund, and what is the amount?

Step Two

The Madisons also must complete a state income tax return and pay a tax on the amount of taxable income shown on their federal return.

4. Using the graduated tax rate schedule, what is the amount of their state income tax?
5. The Madisons employer deducted \$706 in state withholding taxes during the year. Will they have to pay more state income taxes or will they receive a refund, and what is the amount?

Step Three

The Madisons' son, Dwayne, earned \$2,130 last summer to help with the cost of his schooling. He also earned \$84 in interest through his savings account. His employer deducted \$256 in federal and \$78 in state withholding taxes. Dwayne needs to complete state and federal income tax returns in order to get refunds of the taxes that were withheld from his wages.

6. Using the tax table, find the amount of Dwayne's federal income tax. He claims the standard deduction, which is a minimum of \$850 and a maximum of \$5,450.

Name _____

Mrs_Lewis_Business_Math_B_Period 7 Offsite_Learning_Packet_Day 1

7. How much federal income tax refund should Dwayne expect?

8. Using the graduated tax rate schedule, find the amount of Dwayne's state income tax.

9. How much state income tax refund should Dwayne expect?

Step Four

All the Madisons paid FICA taxes at 7.65% on their gross wages.

10. How much FICA taxes did the parents pay?

11. How much FICA taxes did Dwayne pay?

12. What total amount of state income, federal income, and FICA taxes did the parents pay?

13. What total amount of state income, federal income, and FICA taxes did Dwayne pay?
